 The Women's Foundation of Texas

MISSION: The National Association of Women in Real Estate Businesses (NAWRB) is a leading voice for women in the housing ecosystem. With the assistance of our Women's Diversity and Inclusion Leadership Council (NDILC), NAWRB is advocating for women's gender equality, raising the utilization of women-owned businesses and providing women the tools and opportunities for economic expansion and growth. By increasing women's homeownership, we can leverage the entrepreneurial strength of women and help bring the awareness of women's poverty.

FIVE INITIATIVES

DIVERSITY & INCLUSION LEADERSHIP COUNCIL (NDILC):

Dedicated to raising the number of C-suite women and growing women's employment at all levels in the housing ecosystem. Our Council, comprised of senior executive women, works diligently toward gender equality and obtaining equal opportunity for women in boardrooms and C-suites across America.

WOMEN'S GLOBAL RESOURCE CENTER (NWGRC):

Providing a women's depository for vendors and clients to grow their diverse spend and increase women's employment at all levels. NAWRB contributed greatly to the Women Owned Small Business (WOSB) Program which recently awarded a record-breaking 5.05 percent or \$17.8 billion of federal small business contracts to women-owned small businesses.

WOMEN'S HOMEOWNERSHIP:

Committed to increasing women's homeownership and raising awareness of women's poverty levels across America. In the U.S., 29 percent of families headed by women with no husband present live below the poverty level. Of these households, 39.2 percent have children below 18 years and 43.9 percent have children under five. Homeownership means that much more for women; it enables them to make better lives for their families, create wealth and safeguard their professional achievements.

SMALL BUSINESS SUSTAINABILITY CARE PACKAGE:

Providing small business owners with guiding principles for long-term success, our package advises small businesses to be meticulous in everything from vetting their financial institutions to establishing excellent cybersecurity.

STRATEGIC PARTNERSHIP & MENTORING PROGRAMS FOR WOMEN:

Giving women a voice and guidance in the competitive workplace. By increasing the presence of women's mentorships programs and our strategic partnerships, we are helping ensure women have the opportunities necessary for future success.
